

HUMAN VALUES CARDS

Human values don't have anything to do with material values. They are made out of a different kind of fabric! You can't see them or touch them, yet human beings couldn't even exist without them! That means you, too! They're called 'human' because they belong to all people, to every race, culture and tradition. And when you look into your heart you discover that it is just where you can find them!

A TREASURE IN MY HEART

You need: model template 'my heart's treasure', white bristol paper, colored paper, a ruler, pencils and markers, scissors, cut-outs, glue, craft materials.

Draw and cut out lots of rectangles to use for your values cards.

On one side of your cards write a virtue or human value that is important for you like: to know how to smile, to help, to forgive, to listen, to be studious, and so on. Don't forget about the big values like brotherhood, love, friendship, right action, big because they contain all the rest! When your cards are ready make a special treasure chest to safe-keep them. Use the model template. Copy it on a piece of bristol paper, cut out the shape, decorate it and fill it with values! Every day pick a card and ask yourself why you picked the card you did, and not something else in its place. You will find a special message, just for you!

You can make lots of real cute cut-outs using recycled paper!
