

Character is like a flower!

When head, heart and hand think good, feel good and do good, these three aspects of yourself work in harmony. That means unity! When your thoughts, words and deeds are in unity people know it because wherever you go and whatever you do, you leave a wonderful fragrance along your way! Character is like a flower!

I like this activity! Now I feel like a flower too!

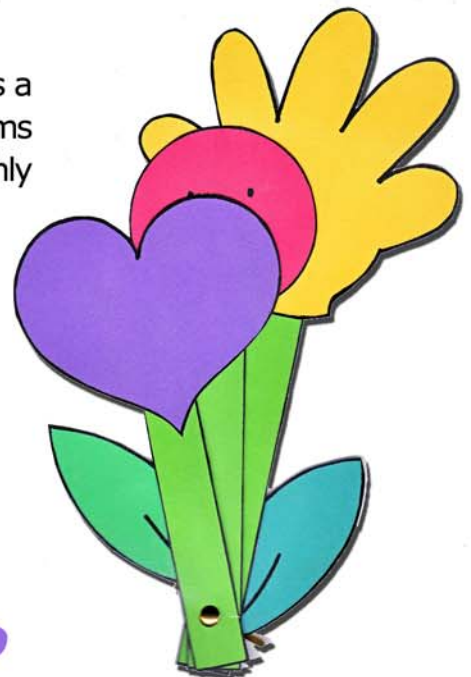

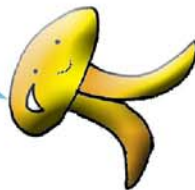

MAKE A FRAGRANT FLOWER

You need: character flower template, crayons, coloured pencils, markers, scissors, glue, a push pin.

Use the template to make your character flower. Colour the parts and cut them out. Don't forget to colour the leaves and stems of your flower. Assemble your flower being careful to glue the longer rectangle onto the hand, and the shorter one onto the heart. These rectangles make the stem of your flower. Glue the leaves onto the separate stems and remember to let the glue dry well before putting the pieces together.

Make a little whole at the bottom of the three stems and pass a push pin through the whole to bring the three separate stems together. Now you can open and close your flower parts, but only when the parts are perfectly united you will have a flower!

I'm a little helper. Use me to make your flower!

**CHARACTER IS BEAUTY AND
BEAUTY IS CHARACTER!**
