

# CREATE YOUR WORLD!

If you could transform the world to your own liking, what changes would you make? How could it be better than it is, just like the world of your dreams?

My world is a soccer field. It's team play. Everyone has their own place and they cooperate to win the game!

## Share your vision!

You need: paper, a compass, pencils, markers or crayons, old magazines, scissors and glue.

Before you begin to work at the image of your world, close your eyes and visualize it within your heart. After minute of silence, draw a perfect circle, big enough to fill the whole sheet of paper. If you don't have a compass place a round object on your paper and draw its outline. Use the circle to create your vision and to express your thoughts and feelings! Colour it, paste in cut-outs, describe what you see, and then share your perfect world with your friends. Ask them to tell you about their own vision, too!

Yeah! A world full of team spirit!

I wouldn't like a world without happiness, love, family and friendship!

**WOULD YOU?**

There is a place for everyone in my world, especially for animals! I travel alot there, and I especially go to the seaside!
