

Model Template for the worksheet “Marty’s Mission” and the activity “Let’s join hands for a Happy World” (www.martyswatch.com)

1. Fold a sheet of newspaper - or other paper - like an accordion.
2. Trace the shape of the template (the two half figures) on the top piece of the folded paper with a black marker.
3. Cut the shape keeping the folds together and making sure you don’t cut the folds!
4. When you open the paper you will discover people walking hand in hand! They are all eager to create a happy world together!
5. Dress the figures up using coloured paper and other craft materials, and give each one a special quality, for example the value of kindness or respect.
6. Remember that outer forms, languages, cultures and traditions are sometimes different but there is only ONE current that moves, inspires and animates us all. That current is LOVE!
