

# EXPLORE WITH MARTY!

Like every explorer walking the planet, Marty has made it a habit to make a note of his adventures and findings.

Look closer!

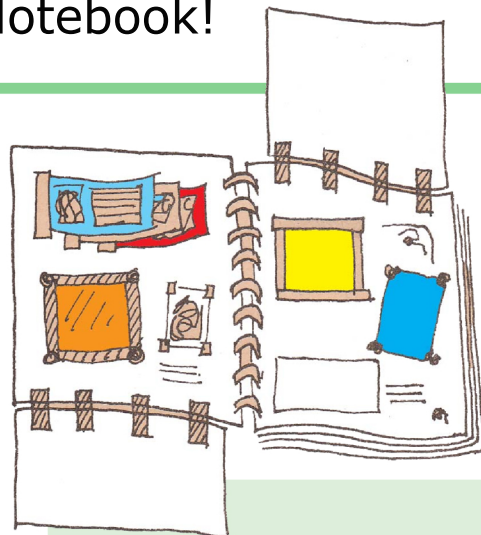

Every evening he takes out his explorer notebook and writes down his memories. Was it a happy, positive day? How many new things did he discover? Was there something that he did or said, that he would like to improve and do better ?

## My Explorer Notebook!

It's easy to make your own explorer notebook! All you need is a school notebook, coloured pencils, crayons or markers, a scissor, an eraser and any other kind of craft materials.

Decorate the front cover as nice as you can. You can glue on one of your best drawings, use glitter or cut outs to make it special.

If you add your name, age and address it will no longer be just any notebook but your own secret companion! Now you're ready to use it to keep a memory of lots of things.

### YOU CAN GLUE IN:

The Story of Marty.  
All the other stories you learn with Marty.  
Your best drawings.  
Pictures and cut-outs.

*Be creative and use your intelligence! Envelopes make great safe-keeping pockets, and if you scotch tape pages to your notebook you will have extra space to use!*

If you need any assistance ask someone to help you!
