

Love GLASSES

The world is beautiful when we look at it through the window of our heart! Everything beams with colour, light and intelligence, and whatever happens seems more meaningful too.

When we wear our love glasses we become more patient with ourselves and everyone else, and more understanding. Our heart sees only goodness and things become better and better!

Make your own love glasses!

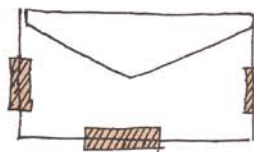

You need: the model template, light cardboard paper, pink coloured plastic, scissors, markers and glue.

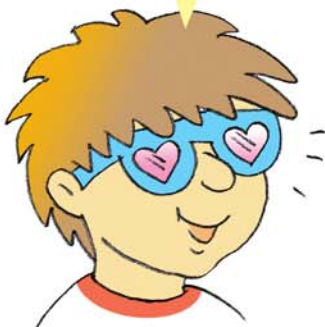

Cut out the template shapes and place them onto a piece of light cardboard. Trace the shapes with the help of a marker and cut them out. Be extra careful when you cut out the inside heart forms! Cut out two pieces of plastic, bigger than the size of the heart shapes.

Glue the pieces of plastic onto the back side of your glasses. Fold along the dotted lines and glue the sides of your glasses in place. Make them as fun looking as you can. Your glasses are ready to wear. Now you can make a pair for your friends!

THESE LOVE GLASSES ARE GREAT! HURRY UP AND MAKE YOURSELF A PAIR!

MAKE A POCKET FOR YOUR GLASSES TO SAFE-KEEP THEM IN YOUR EXPLORER NOTEBOOK!

NOW WHOEVER I MEET SEEMS JUST LIKE ME!
